QUALITIES OF EFFECTIVE PLANNING

- ... We plan so that we can better carry the message of hope.
- ... find new and better ways to meet the needs of the fellowship as they evolve.
- ... to give us insight and help us make better decisions.
- ... When we involve others ... we benefit from different perspectives, experiences and ideas.

HOW TO PLAN

ESSENTIAL PLANNING STEPS

1. **SCAN.** Gather information and input and identify issues that need to be addressed.
2. **SET GOALS.** For each issue, set a challenging, yet achievable goal. Prioritize.
3. **IDENTIFY APPROACHES.** Brainstorm various ways you could achieve each goal, including current activities that work well. Prioritize.
4. **DEVELOP AN ACTION PLAN and TRACK.** Determine tasks to be done, when and by whom. Monitor progress and provide support where needed.
5. **UPDATE!** Keep the plan fresh. Update the plan at least once a year taking into consideration progress made, changing needs and new issues that arise.
