

CRCC, Inc.
Connecticut Regional Convention Committee
BOD Report

05-04-13

I attended the Board of Directors meeting on April 19th.

The Board reviewed, modified, and approved the Programming and Hotels and Hospitality subcommittee's budgets. Budgets for Arts and Graphics, Convention Information, and Entertainment were tabled until next month. Additional subcommittee budgets will be presented at the next meeting as well.

The other major topic of the meeting was the IRS. The corporation's income tax return was filed late two years ago due to difficulties getting the financial records from the person doing the books that year. We now owe the IRS money and are negotiating forgiveness of the debt based on a plan to prevent a reoccurrence of the problem in the future.

I met with the Chief Financial Officer to install and set up Quicken on her computer. From now on, Quicken will be used for all accounting work.

I am also looking into a way to manage the corporations electronic documents on the internet so that individuals who need access to them get have access without multiple copies of files existing on different computers. This would prevent a lot of problems including the one we had with the IRS.

Thank you for trusting me to serve,

Ron B.
