

**CRCC, Inc.**  
**Connecticut Regional Convention Committee**  
**BOD Report**

06-02-13

I attended the Board of Directors meeting on May 19<sup>th</sup>.

The Board reviewed, modified, and approved additional subcommittee budgets.

The new accounting software is set up and being used.

It was decided to add a data storage service provided by our website host to use for storage of corporation documents. Currently, there is no central depository for electronic documents and files. This is a source of confusion, frustration, and problems.

Regarding the issue of the penalty and interest owed to the IRS, three options were prepared for Region to vote on. They vary in how quickly the debt will be paid off. The Board is recommending payment in full, as this will minimize additional interest that would have to be paid. A payment plan was set up with the IRS already, which is the first step in the process. In the meantime, we are working with the IRS to forgive the penalty. If they decide in our favor, they will refund any penalty amount we have already paid. We are still responsible for the interest portion accrued up to the point where the penalty is either paid in full or forgiven.

Thank you for trusting me to serve,

Ron B.
